**Bug bounty – web application
(or) Vulnerability rewards program (VRP)**

COURSE BROCHURE

Overview

- A bug bounty program, also called a Vulnerability Rewards Program (VRP).
- Vulnerability Rewards Program (VRP), is a Crowdsourcing initiative that rewards individuals for discovering and reporting software bugs.
- Bug bounty programs are often initiated to supplement internal code audits and penetration tests as part of an organization's vulnerability management strategy.
- This part is focusing on beginners to share the right path before going to a bug bounty.
- This phase is for those who have already tried in bug hunting but failed for some reason like basic concepts are not clear.

It will give an idea about, the basics of programming,

- a) Network protocols,
- b) Automation and
- c) Reconnaissance process.
